SUMMARY

Hi, my name is Elang Maulana Jauhari.
I am Frontend enthusiast developer.

Graduated from Telkom University majoring in Information System.
I have finished Front-End web development bootcamp at Dibimbing.id
Able to code web pages using HTML, CSS, Bootstrap , JavaScript , and ReactJs.
Ability to implement responsive design concepts , API Implementation, and GIT version control.

I enjoy programming and interseted to learn more about web design and programming.

I've been working as a Customer Service Representative at Infomedia Nusantara Company and placed in Grapari Telkomsel Surabaya.I get knowledge about serving customers, public speaking, and communication skills.
